

December 29, 2021

Greetings Children's Guild Families,

This letter is to inform you that to best continue to serve our students and families, The Children's Guild School of Prince George's County will continue with virtual instruction through January 14, 2022. All students will return in-person for instruction on January 18. This decision was made based on the recommendation from the local health department due to the current number of cases reported to the school and a community positivity rate of 30%.

As we prepare for virtual instruction at the beginning of January, please be aware of the following:

- **Chromebooks:** If your child is in need of a Chromebook or needs their device replaced, please reach out to pghelp@childrenguild.org with your needs and a school administrator will respond.
- **Virtual Learning Schedule:** You will follow the schedule that was provided prior to the winter break. If you need the schedule or Zoom link sent again, please reach out to your child's classroom teacher or pghelp@childrenguild.org.
- **COVID Testing:** We will have drive thru testing available on Thursdays from 9:30am to 11:00am. Please see the flyer below with more information on tomorrow's COVID testing.
- **Resources:** Check out our [GET Support link](#) that provides guidance and links to our instructional and school resources.
- **Need Help:** If there is an issue with your school device, please email service@childrenguild.org. For all other issues or assistance please email pghelp@childrenguild.org.

Please stay safe and vigilant while COVID cases are on the rise nationwide and continue to report any positive cases to the school.

Thank you,

Abby Brandt
